SK034WMH, SK034WFM**

Notification Date: August 6, 2009

Dear Customer,

Secura Key periodically conducts market assessments of our product lines, with the overall goal of providing you with more focus and better support for Secura Key product portfolios.

As a result of a recent assessment of our Touch Card® readers, the Metal Housing and Flush Mount Housing versions will be discontinued (see list above). This will affect all product configurations including related customer special part numbers, if any. We are providing advance notice of these product changes in order for your company to adjust its product purchasing records, or make any final purchases of the discontinued products that are still in supply. Please copy your purchasing, technical and sales personnel on this notice.

The reason for obsolescence is that market demand for these products is extremely low. We will continue to offer the functionally equivalent Surface Mount (SM) version of each of these products, which are extremely rugged, and are suitable for indoor or outdoor applications. **Customers are encouraged to order and accept deliveries as soon as possible.**
